

Austin Flannery OP (1925-2008) made many significant contributions in church life, as well as in civic and cultural arenas. The project with which his name continues to be most publicly linked is his translation of the documents of Vatican II, and of the post-conciliar documents which implemented its work in detail. All this culminated in his *Vatican Council II: Constitutions, Decrees, Declarations*.

**PUBLIC LECTURE TO CELEBRATE
THE CENTENARY (1925–2025)
OF THE BIRTH OF AUSTIN FLANNERY**

From Vatican Council II to a Synodal Church

Cardinal Mario Grech
